

**Final Appraisal Recommendation**  
Advice No: 1921 – December 2021

**Cannabidiol (Epidyolex®) 100 mg/ml oral solution**

**Submission by GW Research Ltd**

**Recommendation of AWMSG**

**Cannabidiol (Epidyolex®) is recommended as an option for use within NHS Wales for adjunctive therapy of seizures associated with tuberous sclerosis complex (TSC) for patients 2 years of age and older.**

**This recommendation applies only in circumstances where the approved Patient Access Scheme (PAS) is utilised or where the list/contract price is equivalent or lower than the PAS price.**

**Additional note(s):**

- Please refer to the Summary of Product Characteristics for the full licensed indication.
- AWMSG considered cannabidiol (Epidyolex®) as an orphan medicine according to the criteria in the AWMSG appraisal process for a medicine for a rare disease.

In reaching the above recommendation AWMSG has taken account of the appraisal documentation prepared by the AWMSG Secretariat (reference number 3201), which includes the AWMSG Secretariat Assessment Report (ASAR), the Preliminary Appraisal Recommendation (PAR) and the applicant company's response to the PAR, clinical expert opinion (where available), the views of patients/patient carers (where available) and the lay member perspective.

This recommendation has been ratified by Welsh Government and will be considered for review every three years.
