

## Controlled drug schedule guidance

Controlled drug	Brand name(s) include:	Legal requirements (these are minimum storage requirements)
<b>Schedule two controlled drugs (CD)</b>		
Morphine	MST Continus <sup>®</sup>	Requires safe custody in a CD cabinet.
	Sevredol <sup>®</sup>	
	Zomorph <sup>®</sup>	
	MXL <sup>®</sup>	
	Oramorph <sup>®</sup> concentrated oral solution 100 mg/5 ml	
Diamorphine	-	Must be recorded in CD register.
Dexamphetamine	Dexedrine <sup>®</sup>	
Pethidine	-	Two trained members of staff required to record in CD register.  Stock checks should be carried out at least once a week, but they may be carried out more or less often depending on the circumstances ( <a href="#">NICE guideline 46</a> ).
Oxycodone	OxyContin <sup>®</sup>	
	Oxynorm <sup>®</sup>	
	Longtec <sup>®</sup>	
	Shortec <sup>®</sup>	
Methadone	Physeptone <sup>®</sup>	
Methylphenidate	Ritalin <sup>®</sup>	
	Concertav <sup>®</sup>	
Fentanyl	Durogesic DTrans <sup>®</sup>	
	Mezolar Matrix <sup>®</sup>	
	Matrifen <sup>®</sup>	
	Fentalis <sup>®</sup>	
	Fencino <sup>®</sup>	
<b>Schedule three controlled drugs (CD)</b>		
Buprenorphine	Reletrans <sup>®</sup>	Buprenorphine and temazepam must be stored in the CD cabinet. Other CDs listed in schedule three do not require CD cabinet storage.
	Butec <sup>®</sup>	
	Butrans <sup>®</sup>	
	Subutex <sup>®</sup>	
	Temgesic <sup>®</sup>	
Pregabalin	Lyrica <sup>®</sup>	Schedule three CDs do not need to be recorded in the CD register. However, it is good practice to make records for temazepam and buprenorphine. It is also good practice to treat the other schedule three drugs as drugs liable to misuse and record their usage.
